

# Protean 4 with CPR Quick Release

*LiftCare*  
innovative healthcare solutions

Another world's first from LiftCare—true floor level nursing with CPR quick release

*“Design your own” true floor level bed with Protean 4!*

**The new Protean 4 comes standard with Kneebreak, Trendelenburg (and reverse), 3 Position Adjustable Push Handle for easy manoeuvring, CPR release (release handles both sides of backrest), 1.2Ah Battery Backup, Standard Castors and 10 button handset.**

3 Position Adjustable Push Handle

Wall Bumper Bar

Foil Control Panel

## It's all about choice ...

- Handsets and operating options—
  - CPR button
  - Infra Red system (1 handset and 1 transmitter unit)
  - Backlighting (available on some handset models)
- Foil Control Panel—for use with handset lockout
- Power options
  - Mains power
  - Low Voltage power
- Battery Back Up with audible warning when bed is not connected to mains power
  - 4.5 Ah
- Safety lighting
  - Two types of Under-bed lighting for added resident and carer safety

And the ability to add other safety features\*\*\* such as

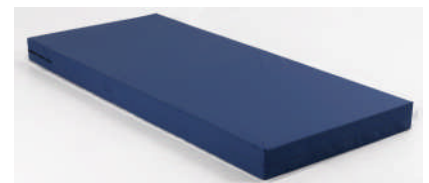

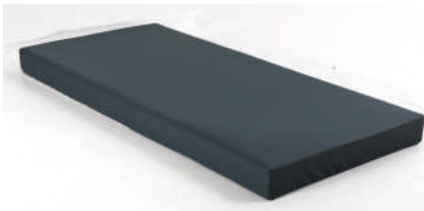

- Out of bed warning
- Wet bed alarm
- Nurse Call Systems

---

### Accessories suitable for the Protean 4:

- Calf Raise
- Dual Wheel Castors
- Wall Bumper Bar (head end)
- Self Help Pole
- IV Pole
- Extension Kit (175mm) with Bolster
- Side Rails\*\*

And a range of High Quality Pressure Care Mattresses

\* Design Your Own—some options may only be available for quantity orders

\*\* Side Rails—LiftCare strongly recommends against the use of side rails as they are known to cause death and injury worldwide

\*\*\* Third Party options depend on system compatibility
